Sheepdog Defense Group

Glossary

Definitions

1.1 Admin

The admin for the Sheepdog Defense Group website is going to be David, the owner and manager of the company. David is the only admin.

1.2 Customer

The customer is any member of the public who wants to sign-up for any of the self-defense or firearms training classes.

1.3 Class

Sheepdog Defense Group offers a wide range of self-defense and firearms training classes. These classes include: License to Carry (LTC), Combat Pistol, Intermediate, Purchase Assistance, Simunitions, Self-Defense, Tactical Medical, and Threat Assessment. Whenever the term class is mentioned, it could be referring to any of the above mentioned classes.

1.4 Consult

Part of Sheepdog Defense Groups business is providing training services to church groups and private schools. These groups must first go through with a consultation, in which Sheepdog will make a visit to the location and asses the site to create safety and evacuation plans.

1.5 Guard

Sheepdog Defense Group's main focus is on providing church groups and private schools with the training needed to prevent them from becoming targets of violence. As part of their process, Sheepdog provides threat assessments and safety plans for a church, and in turn the church will volunteer members who will be trained by Sheepdog to protect the church. So in short, Sheepdog trains members of a church who then work for David to help protect the church they're from.

1.6 Gun License

Each guard is allowed to carry two guns while on-duty. The admin needs to keep track of which guns each guard is carrying and needs to know the make, model, serial number, and caliber of each gun.

1.7 Heroku

Heroku is a cloud Platform as a Service. We used it to deploy and manage the Sheepdog Defense Group website.

1.8 Amazon S3

Amazon Simple Storage Service is an online storage offered by Amazon Web Services. We used this service to store files (PDFs and images).

Sheepdog Defense Group
