COVID Tracker

TCU Senior Design 2021

The Team

Nick Bell
Front End Developer

Damon Ramirez
Project Lead
Front End Developer

Cuong Nguyen
Front End Lead

Joe Donoghue
Front End Developer

Zach Macadam
Backend Lead

Client

Dr. Bingyang Wei
Assistant Professor at TCU
b.wei@tcu.edu

Presentation Overview

1. Background and Requirements
2. Product Architecture
3. Technologies
4. Front End Features
5. Tracking the Virus
6. Retrospect
7. Questions & Answers

Real-Time COVID Tracker

US, State, and County Data

Cases, New Cases, Deaths, Vaccinations, Hospitalizations

Project
Summary

Client Requirements:

- Interactive Map
- Real-Time Data
- Charts
- News

Existing Problems:

- Cluttered Dashboards
- Slow Sites
- Overwhelming Data
- Scope Too Wide

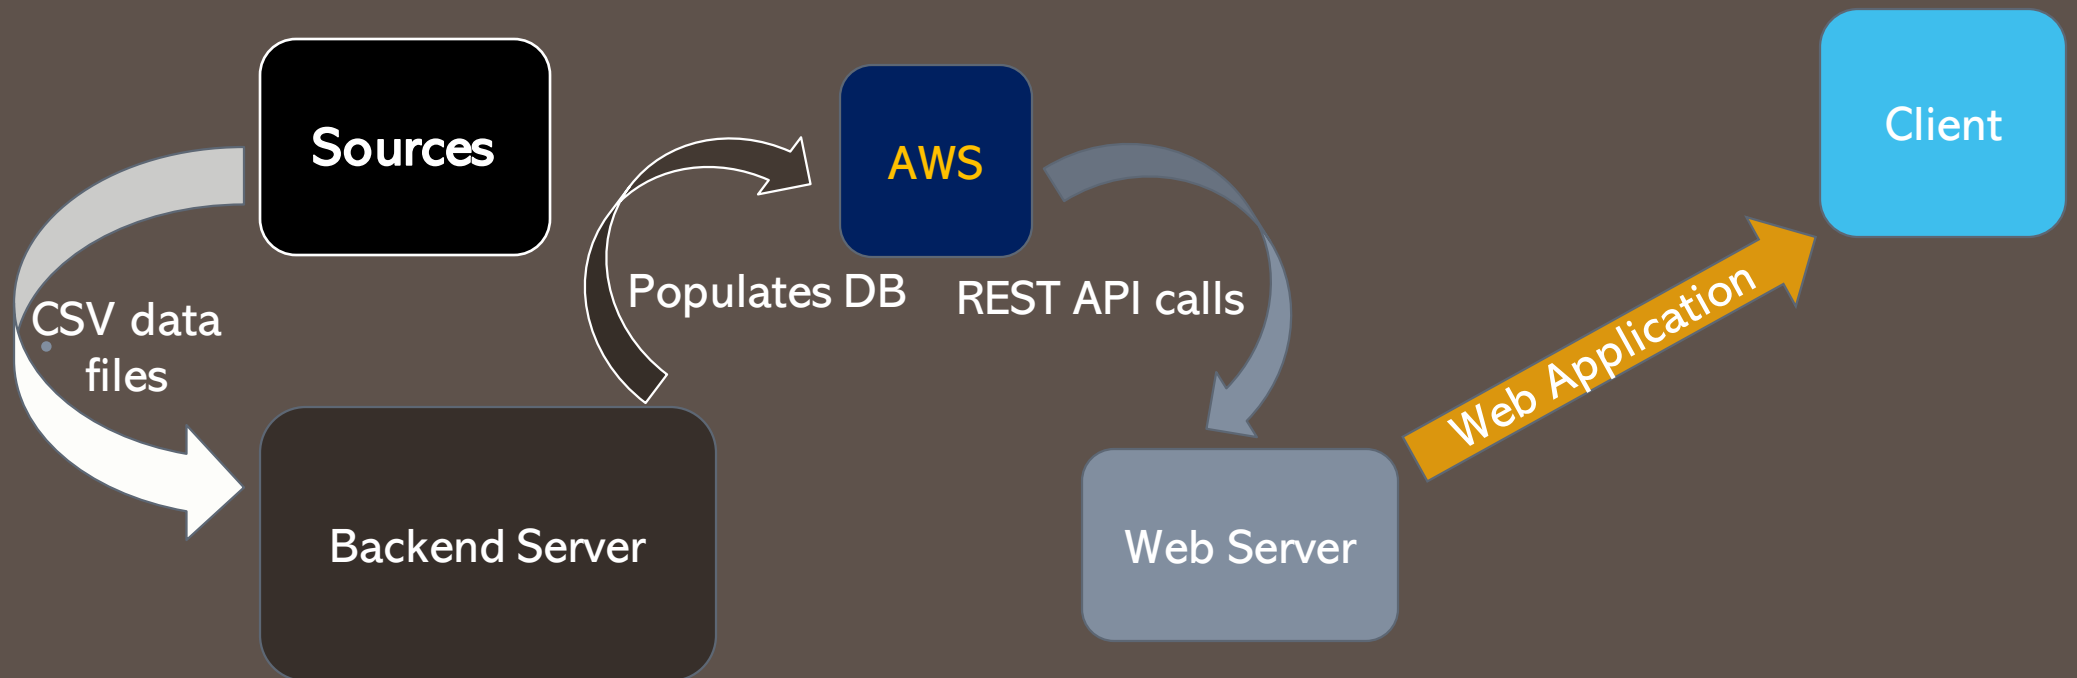

Problems & Requirements

33.7 second load-time before interactive per Google PageSpeed Insights

mandate and il capacity, Texas

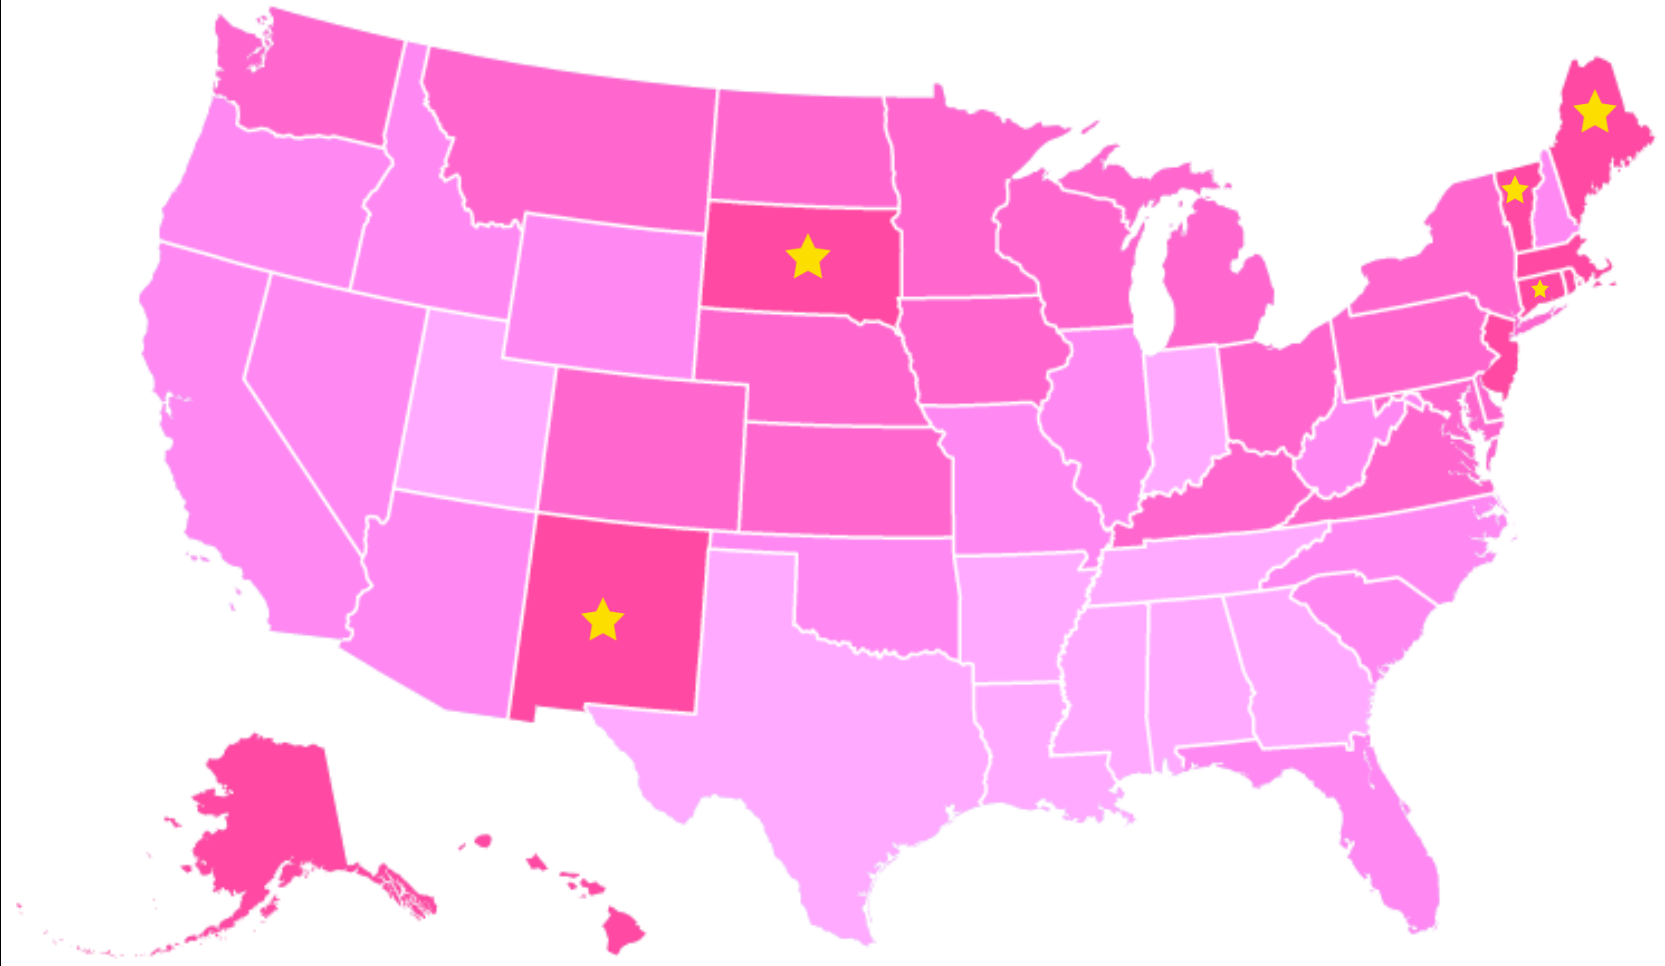

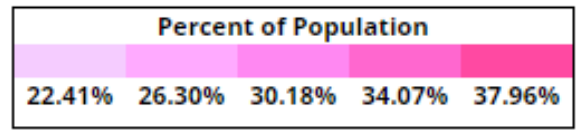

ines in Texas

Let's Track the Effect of the Vaccine

Top 5 Most
Vaccinated
States as of
April 29th

State:	% Population Vaccinated:	New Cases Yesterday:
#1 Maine	37.96	261
#2 Connecticut	37.23	621
#3 Vermont	36.35	48
#4 New Mexico	36.04	220
#5 South Dakota	35.38	170

Looking Back

- Lessons Learned:
 - Online Teamwork
 - Work Delegation
 - Choice Overload
- Challenges Faced:
 - Multiple Render
 - Middleware
 - Open-Source Data
 - Limited Data
 - Deployment
 - Learning Curve

Plans for the Future

- Transfer ownership to Dr. Wei
- Keep publicly deployed for client use
- Incorporate economic trends

The logo for Texas Christian University (TCU), featuring the letters "TCU" in a white, stylized font on a purple rectangular background.
