

Smart Homeopathy Doctor App

Delaney Ochs - Barbara Amoros - Steve Priest - Marko Vulovic - Trieu Truong

Faculty Advisor: Dr. Krishna Kadiyala

Background

Problem: Hygieia's current website lacks easy accessibility to products and services. Additionally, having no searching function impacts the user's ability to find a homeopathy cure for their symptom.

Solution: Develop a fully functional mobile app for patient management, easier content viewing, appointment scheduling, shop for remedies and natural products, and discussion board

Users

Search app for conditions of homeopathy

Are you looking for something specific?

Acknowledgments

Our team would like to thank Dr. Sowmya, founder of Hygieia Homeopathy, for giving us the opportunity to develop this app. We also thank our advisors Dr. Kadiyala and Dr. Wei for their support.
