Minutes

Agenda item: Plans for Iteration 1

Presenter: Bingyang Wei

Discussion:

Progress report on iteration 1. Every senior design group has put together a plan for the first iteration of software for their project. Reviewed priority requirements for the iteration that needed to be completed. Highlighted technologies to link frontend to backend and implement authentication: Thymeleaf, JWT, Vue.js, Spring Security.

Conclusions:

Need to review backend, implement authentication, and link frontend to backend.
